Liberal Achievements!

A---FOR THE BENEFIT OF AGRICULTURE:

- 1 Seed Grain Relief
- 2 Co-operative Credits
- 3 Municipal Hail Insurance
- 4 Agricultural Schools
- 5 Encouragement of Dairy Industry
- 6 Farm Machinery Act
- 7 Irrigation Act
- 8 Encouragement of Livestock Industry
- 9 Highway Policy

B---FOR THE BENEFIT OF LABOR:

- 1 Factory Act
- 2 Compensation Act
- 3 Mines Act
- 4 Establishment of Employment Offices
- 5 Co-operative Associations Act
- 6 Minimum Wage Act

C---FOR THE PROTECTION OF WOMEN AND CHILDREN:

- 1 Dower Act
- 2 Mothers Allowance
- 3 Married Women's Relief Act
- 4 Life Insurance Beneficiary Act
- 5 Establishment of Women's Institutes
- 6 Health Laws
- 7 Children's Protection Act

Mr. Green, of the American Federation of Labor, stated that the Liberal Government of Alberta had passed more beneficial legislation than any legislature in the English-speaking world.

Can the Present Government Equal This Record ?

VOTE FOR BRYAN
THE LIBERAL CANDIDATE.

Stony Plain and District

Stony Plain Local U.F.A. holds its regular meeting to-night in the Royal Parlor.

Col. Jamison and Mr. H. R. Milner K. C., paid Stony a visit on Saturday, and had interviews with a couple of our leading Conservatives. The Colonel is the candidate of the Conservative party in the West Edmonton Federal Riding, the elections for which are billed to take place in July.

The muddy side roads have put a check to a certain extent on the political canvassing which was in progress in this district, and has tended to reduce the audiences at the meeting places off gravel roads.

See Mecklenburg, the well-known Edmonton Optician, at the Royal Hotel, Stony Plain, Wed., June 18. The very best and latest styles and at moderate cost. Edmonton office, Suite Six, 10170 101st St.

As You Like It.

At the close of the U.F.A. meeting here on Wed. last, the officers of the Constituency Ass'n held a meeting, with Mr. Broadstock in the chair. Several matters in connection with the ensuing contest were discussed, and plans made to bring the present campaign to a successful issue. After other minor matters had been attended to, the meeting adjourned to meet again this week when it is expected a full attendance will be present, including the presidents of all the U.F.A. and U.F.W.A. Locals in this Constituency.

That there will—or will not—be a Conservative candidate in this constituency at the present Provincial contest cannot be definitely foretold as yet, after interviews with several of the local leading lights in that party. One thing which can be definitely stated is, that there has no arrangement been made for a saw-off between the two older parties in this riding. A suggestion to this effect was made by a leading U.F. politician last week that there, apparently, was a working arrangement of this character between Liberals and Conservatives in some Provincial constituencies.

It is noted that the members of the Brownlee Cabinet are paying greater attention to this riding than in the former two elections. Hon G. Hoadley opened the show for the Government on May 23d, here. Another Minister or two will give addresses at the Grove, Carvel and Duffield; while Premier Brownlee is billed to deliver two addresses on the same day—one at Kentwistle, the other at Wabamun.

Another contentious matter—and one which caused foreboding as to the probability of the Act being pushed thru when the legislature meets—was dealt with by Premier Brownlee in his speech here last week. This was the proposed Baker School bill. Dealing with the various angles of this bill, Premier Brownlee pledged his word to Stony Plain electors that the bill would not be put thru the House so long as there is strong disapproval of it.

Keeping Pace With Progress

Are we keeping pace with progress?

Progress is an illusory thing. It may be seen, but so often is not perceived. Like old age or a thing in the night, it creeps upon one unawares and suddenly one awakens to realization that some profound change has taken place, an evolution has occurred. We have not been aware of the fact because of its apparent insidiousness—because its movement towards and past us has been gradual. We have seen it unconsciously but it has been too close to us for observation.

Yet despite this seeming slow approach the thing that we call progress moves with great rapidity, but it moves continually, a step at a time, but never halting. It is an onward march that never tires, never falters.

The only way to correctly gauge progress is in retrospect. Look back a few years, only a decade or so, and the remarkable progress which civilization makes in the course of a brief span suddenly becomes apparent with startling clarity. Yet we do not see these extraordinary and far reaching changes in the making although they are going on all the time.

Turn over the leaves of the family album and immediately the truth of the assertion stares one in the face. What an extraordinary change in style of dress, in shape of headgear, in fashion of hair dressing in a few years. It appears incredible that one really looked like that 20, 15 or even ten years ago.

But progress does not mark a changing trend in dress alone. It invades every realm of activity within the ken of human experience. In the whole field of things material and in the entire mental and even spiritual arena, a steady and unrelenting advance is being made.

Hard back but twenty years and compare the means of transportation of that time with the swift cabin monoplane and upholstered limousine of today. Contrast the crude telephone of a generation ago with the automatic and the radio of the present time. Appraise the difference between the mired prairie trail of yesteryear with the broad gravelled highway along which we now roll.

A little reflection shows that everything with which we come in contact, everything we experience, everything we do has been subject to just as remarkable an evolution as those things to which specific reference has been made. Not only has progress made radical changes in what we wear and how we travel in a few short years, but it has wrought a similar transformation in what we eat and drink, in our amusements, in our work, in our social life, in our worship and even in what we think.

In no sphere of activity, however, has this evolution been more marked in recent years as in the field of daily work, in the realm of business, in city and country. In methods of production, in modes of distribution, in processes of marketing changes have revolutionized and are continuing to revolutionize the daily life of the individual. These changes are so pronounced and so rapid that they are apparent even to the most careless onlooker.

A writer in a popular magazine recently pointed out that such swift changes are being made in the conduct of business and commerce that heads of business houses are finding it increasingly difficult to secure young men competent to engage in commercial life without first being re-trained after they have left college. The almost daily application of new scientific discoveries in the field of business results in the college student being out of date because the course, though designed for the particular vocation he intends to follow, has not kept pace with the changes taking place in the practical arena.

This evolutionary process is going on in the whole industrial field, agriculture included, but as was stated at the outset it is not always so easy to perceive it because of its constancy and its proximity.

For this reason it is perhaps a wise thing, nay, a necessary thing to sometimes pause and look back a little, make a few comparisons with the past, and in the light of these contrasts a clearer perspective may be gained of what is happening from day to day, and perhaps even an inkling may be secured of what may be expected in future.

Only by doing this can we secure the necessary vision to enable us to keep pace with progress.

Engineer Will Survey Mines

Government Official To Visit All
Important Centres During
Season

Hon. Charles Stewart, Minister of the Interior, has announced that Supervisory Mining Engineer C. C. Ross was leaving for Fort Smith. Mr. Ross will visit all the important centres of mining activity throughout the season. He will organize the work of the office and the field parties and endeavor to ascertain the needs of the prospectors and companies. Mr. Ross will then be in a position to advise the Minister of the Interior fully on all that appertains to the future of the industry.

WAS RUN DOWN NOW WELL AGAIN

Takes Pleasure In Recommending
Dr. Williams' Pink Pills

To the woman in the home illness is almost a calamity. Many a woman keeps on with her household duties while she is feeling ready to drop. Her head aches, she is easily tired, is depressed and nervous and has no appetite. In a word she is anemic and badly needs help. The health-giving Dr. Williams' Pink Pills can give her. These pills make rich, red blood which brings new strength and energy to weak, dependent sufferers. Concerning them, Mrs. Paul Raul, Cois du Blanc, Que., says: "I was badly run down, slept poorly, and awoke as tired as when I went to bed. My appetite was poor and I felt miserable. I took six boxes of Dr. Williams' Pink Pills and they completely renewed my health." Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

New Flags For Old

Fifteen Nations Have Made Change
Since World War

Fifteen nations, containing more than one-third of the world's population, are living under new flags since the World War. In addition a new flag of red, white and green is now flying in India, where the people, where Gandhi's revolutionists have proclaimed independence of Great Britain. In fact since the change of colors by Russia, Germany, China and other great political divisions the probability is that not more than four flags of major nations can be universally identified today.

Attacked By Asthma. The first fearful sensation is of suffocation, which hour by hour becomes more desperate and hopeless. To such a case the relief afforded by Dr. J. D. Kellogg's Asthma Remedy seems nothing less than miraculous. Its help is quickly apparent and soon the dreadful attack is mastered. The asthmatic who has found out the dependability of this sterling remedy will never be without it. It is sold everywhere.

Plants Large Forest Area

A forest in the country 200 acres of it—has been planted by the Saskatchewan forestry service, in the Prince Albert region. H. P. Elsler, forestry engineer, stated that the transplanting of 2,000,000 nursery seedlings and stock in the largest such programme in the province's history. Most of the seedlings are jack and white pine.

Spare the children from suffering from worms by using Miller's Worm Powders, a most effective vermifuge with which to combat these insidious foes of the young and helpless. It is a household worm destroyer, and when its qualities become known in the household no other will be used. The medicine acts by itself, requiring no purgative to assist it, and so thoroughly that nothing more is desired.

Increase In Grape Growing

The development in grape growing by J. W. Hughes, of Kelowna, furnishes some interesting data. In 1927, he had 500 baskets, in 1928, 2,500 baskets, in 1929, 20,000, and this year he expects 40,000. A winery is offering \$100 a ton for "concord."

Let's Go Fishing

But not forget to take Minard's along. It will take care of cuts, bruises or mosquito bites.

MINARD'S
"KING OF PAIN"
LINIMENT

Investments Along the National Show Increase

Over Seventy-Four Million Involved
In Establishing Industrial Plants

New industrial plants established along the lines of the Canadian National Railways, in 1929, involved a total capital investment by the industries of \$74,106,100, according to the annual report of William Phillips, manager of the Industrial Department of the system. This was an increase of \$696,300 over the previous year, when the expenditure was \$73,409,800. Additions to plants already existing represent an investment of \$33,361,000, an increase of \$8,792,200 over 1928. On the Grand Trunk Western lines of the system, the capital investment by industry for new plants and branches totalled \$11,729,000. While this was a decrease of \$7,500,400, there was an increase of \$2,227,000 in additions to plants, the total being \$11,563,000.

Canadian development from Atlantic to Pacific, Mr. Phillips indicates, was in many fields, involving such industries as: newspaper, cold storage, warehousing, grain elevators, silk mills, canning plants, foundries, distilleries, automobile plants, lumbering and mining industries. The most outstanding developments in Western Canada were in mining in Manitoba, and in cold storage plants in British Columbia. The Hudson Bay Mining and Smelting Company, and the Sherritt-Gordon Mines, Ltd., at Flin Flon, and Sherridon, expended \$10,000,000, while two cold storage plants, costing more than \$3,000,000, were established at New Westminster and Victoria, B.C. New elevators in the west represented an investment of \$1,345,600 and new oil warehouses, \$482,000.

Wise mothers who know the virtues of Mother Graves' Worm Exterminator always have it at hand, because it proves its value.

The Practical Way

They have a practical way of doing things in the west, says the Toronto Globe. For instance, the Saskatchewan Department of Agriculture has bought a farm "absolutely polluted with weeds," and will proceed to make it blossom as the rose. A demonstration of this kind will be worth a thousand lectures on the best way to get rid of noxious growths on the farm.

Minard's for Insect Bites.

Dairying and Mining

The annual value of Canadian dairy products—\$297,625,000—is a few million dollars less than the annual value of the mineral production of the Dominion. A total of 286,000 farmers supplied milk and cream to the 2,833 dairy factories throughout the Dominion last year.

You will sleep more soundly than ever before in your cozy Third Class stateroom on a Canadian Cunardship. Soft mattresses, spotless linen, warm blankets, feather pillows, bedspreads, clean towels, large mirror and washstand, plenty of soap and water, cleanliness everywhere... and trained stewards to wait on you.

All this is part of Third Class service on this famous Line. This service means that you eat, sleep and play as you never did before, on the voyage over and back.

Make sure you are going to enjoy the trip by sailing Cunard to the Old Country.

Former French Premier Has Great Faith In The Future Of Aeronautics

Giant trans-Atlantic aeroplanes hurtling through dizzy altitudes at terrific speeds, the passengers breathing oxygen supplied from special tanks, will soon make Paris less than 10 hours from New York, M. Paul Painlevé, former premier of France, told the United Press.

"Perhaps I shall live to see the day," said the 67-year-old former premier, "when these specially constructed planes will roar through the thin air at altitudes above 32,000 feet at speeds surpassing 300 and 400 miles an hour."

"When the technical problems for the construction of these high-altitude, speed aerobots are solved, then will trans-Atlantic air service become a reality. Lindbergh's solo flight stimulated the solution of these difficulties and perhaps before I die, aeroplanes speeding at 300 and 400 miles an hour high above both clouds, rain and tricky air currents will link Paris with North America."

Seated at his desk, littered with mathematical treatises and scientific manuscripts, M. Painlevé waved his hands at the bookcases which covered the walls from floor to ceiling of his study.

"In 1903 when I was well along in my study of those books and was beginning to do a little mathematical thinking myself, I convinced myself that heavier-than-air flight was possible. Six years later Orville and Wilbur Wright came to France with their crazy air-machine. I knew it would fly, and it did. My six-year-old dream had come true and since then I have never lost my faith in aviation."

Three years ago Lindbergh landed at Le Bourget. His flight was just as important as the first trial I made with Wilbur Wright in 1908. The one proved the plane was feasible, the other demonstrated it was the world's best means of rapid transportation. Lindbergh set the best aviation experts of the world studying means of perfecting aeroplane motors and equipment. The Wright Brothers, Elbert and Lindbergh are a trio of names upon which aviation history stands."

The famous mathematician-politician declared there are only two certain methods of conquering the Atlantic by air. The first is by developing machines to fly in extreme altitudes, thus lessening resistance, increasing speed, and decreasing danger through atmospheric conditions, and the second is to establish floating islands for use with present-type of aeroplanes.

Although Painlevé said he believed floating landing fields were feasible, he thought the future of aviation rested in flying high at terrific speeds. The machine would have to be constructed in such a manner to resist the unequal pressure, and both passengers and crew would have to be supplied with oxygen to breathe at such dizzy altitudes.

Six times M. Painlevé has been minister of war, and yet he is not convinced that the aeroplane is the most formidable war for use in the next war, which Painlevé hopes will never come for at heart he is an ardent pacifist.

"Aeroplanes have their use in war," he said, "but they will not be so dangerous as many people like to

believe. New self-aircraft guns are being perfected which will make the average airman in the next war feel like a partridge under bombardment from a thousand shot-guns. No, the plane is more interesting to me for its commercial value."

One Way To Count Cost

Expenditure In Great War Would Have Built Many Garden Cities

The League of Nations reports the cost of the Great War at \$363,000,000,000 and 87,000,000 lives—that is four times the total population of Canada, not merely of lives, but lives of selected men, competent in virtue of admirable qualities to meet the most terrible responsibilities that an imperfect civilization can place upon men. The cost in money would have built 181,500 garden cities, where the evils of congested living, the sordidness, the ugliness and the despair that breeds resentment, anger, broken homes, ill-bred children, crime and disease would have had no seed bed for growth.

(By Anabelle Worthington).

3248

Here is a cute model for classroom for the little sub-deb who admires snappy clothes that are simple and smart.

It is navy blue wool crepe printed in dark and vivid red tones and belted at normal waistline with plain red in the dark shade of grosgrain ribbon. The collarless neckline is softened by self-fabric bow tie.

It is moulded through the waist and hips with slight blousing above belt with new flared fullness introduced in skirt through soft gathered flounce with upward tendency at front.

This attractive style No. 3248 comes in sizes 8, 10, 12 and 14 years. For the girl of 8 years, it can be copied exactly with 1 1/2 yards of 30-inch material and grosgrain ribbon belt.

There are many other fabrics equally fashionable and suitable as crepe de chine, wool challis prints, rayon crepe and wool jersey.

Poultry From E.P. Ranch

Prince of Wales Will Exhibit At World's Congress

Birds from the ranch of H.R.H. the Prince of Wales, at Pekisko, near High River, Alberta, will be among the many interesting exhibits at the World's Poultry Congress, to be held at the Crystal Palace, London, England, July 22 to July 28, 1930. Another exhibit that is likely to attract attention will be the birds from the royal aviary at Windsor Castle. Canada has a particular interest in this aviary for among the birds are some Canadian Barred Rock presented to His Majesty, King George V. by the Canadian Government following the second World's Poultry Congress at Barcelona, Spain, in 1924. This trio was the finest that could be procured in Canada. An exhibit of 1,000 birds is being sent to the World's Poultry Congress from Canada.

People Make Living

From Watercress Beds

Plant Grows In Profusion In Picturesque English Village

Motoring between Henley and Netley recently, says a writer in the London Evening News, I came for the first time upon "Watercress Village." It must be unique in England. Its name is Ewelme, pronounced Yewelm. A stream as clear as crystal runs down the middle of the village street, and watercress grows in profusion in it. Rustic bridges cross the stream and lead up to the cottage gardens. Further broad expanses of watercress beds lie beyond the cottages, and the occupants make a living from watercress.

Some specimens of the California fan palm reach an age of 200 years.

Provinces Need Aid Of Federal Government To Build National Highway

Annual Agricultural Statistics

Every Farmer Asked To Fill In and Return Schedule

It is the custom of the Dominion Bureau of Statistics to co-operate with the nine provinces in taking a Dominion-wide census of important agricultural facts in June of each year.

The census takes the form of a simple cardboard schedule, distributed to individual farmers through the medium of the rural school teachers and pupils in seven provinces, and in Ontario and British Columbia through the rural postal offices. The essential object is to reach every farmer and to encourage as many as possible to fill in and return the schedule.

The two main phases of farm production—the areas of field crops and the numbers of live stock—are covered by the form. The areas of field crops determined from the schedules are combined later in the season with the estimated average yields per acre to determine the total yield for the country. In the case of wheat, particularly, the importance of having correct estimates of acreage is thus made apparent. Although there are many estimates of anticipated production, most of these are based on the one official acreage estimate, which has been issued annually since 1917, by the Dominion Bureau of Statistics.

It is unnecessary to emphasize the value of a wide sample to the attainment of accurate statistics, and it is our hope to obtain a completed schedule from the great majority of Canadian farmers. The more numerous the returns received, the more reliable will be the estimates compiled from them. Much of Canadian economic enterprise depends to some degree on correct estimates of agricultural production in the making of their plans.

If any farmer does not receive the cardboard schedule by the middle of June, he should apply to the school teacher of the nearest rural school, to his provincial Department of Agriculture, or to the Dominion Statistician, at Ottawa. Letters addressed to the Dominion Statistician require no postage.

An All Canadian Firm

The Beatty Brothers' Factory at Fergus, Ontario, has made a record shipment of laundry equipment sets—some 8,000 of them—over Canadian Pacific lines for various destinations. It is pointed out that every item of the equipment was made in Canada and every official and employee of the company is Canadian.

SAIL INLAND OCEANS

Passenger service on the Great Lakes is now opened for the summer season, and the three fine vessels of the Canadian Pacific fleet on these waters, S.S. Assiniboia, S.S. Keewatin and S.S. Manitoba, are now at the disposal of the public. Travellers wishing to vary the railway trip between Toronto and Winnipeg are now able to make a pleasant change by taking ship at Port McNicoll and passing through Lakes Huron and Superior, via Sault Ste. Marie, to Port Arthur and Fort William. At the latter point they tranship to the Canadian Pacific trans-continental train and continue their journey to Winnipeg and the coast. Lay-out shows S.S. Assiniboia, a fine vessel of 3,800 tons, and having accommodation for 200 first-class passengers, and sketchmap of Great Lakes route.

A complete trans-continental highway in Canada may be a somewhat remote goal, but it is worthy of observation that it is now engaging the attention of Members of Parliament from one end of the country to the other. In his recent debate on the subject such parliamentary leaders as Hon. Dr. Manion, Hon. Charles Stewart, Hon. Hugh Guthrie, Hon. Charles Dunning, the Prime Minister, Hon. R. B. Bennett, Mr. Woodsworth and others indicated an increasing concern for the scheme. In connection with the matter, Dr. Manion supplied the interesting information that there remains only some 300 miles of highway yet to be constructed, and he advanced the argument that as this was through unproductive provincial territory, it might well be expected that the Dominion would contribute towards the construction of it. One of the strongest arguments in favor of the project advanced in the House of Commons was that there is no national highway communication save the head of the Great Lakes and that transportation by motor must be through a foreign country. A year ago Mr. King estimated the cost of a national trans-continental highway at 200 million dollars, but Dr. Manion suggests that the link above the Lakes might be completed for 5 or 6 millions. His suggestion that the Dominion might very well co-operate with Ontario regarding the cost seems not unreasonable. Dr. Manion put the matter in this way: "There is this to remember regarding the building of national and provincial highways, that the provinces are in perhaps a rather difficult position to undertake alone the building of a national highway. Take, for instance, across the northern section of Ontario extending from Sudbury to the Manitoba boundary, an area nearly as large as Germany and France put together, with a population of only 200,000. This sparse population requires branch roads and a large amount of money is being expended in the construction of branch colonization and settlers roads. Therefore the provincial government should not be expected to build the whole of this national highway across that section of Northern Ontario. That, after all, is the only action remaining to link up these different roads which could be, for the time being at least, turned into a trans-Canada or a Canadian national highway. Therefore, because of the demands of the provinces, it is particularly necessary, if the road is to be built, that the Dominion Government should take part in the work. The Dominion Government should also take part in this road-building from the national aspect of linking up the east and the west."

Will Be Well Represented

Fifty-five cities in the United States and Canada will be represented at the fourth World's Poultry Congress which has been organized by the Governments of Great Britain and Northern Ireland, and a large number of the attending poultrymen will sail on the Canadian Pacific liner "Duchess of York" from Montreal on July 12, headed for the Crystal Palace, London, where the Congress will take place, from July 22-30.

A Navajo squaw would not think of making a perfect rug for tradition says that blindness would follow such a deed.

"Why didn't I see you in school this morning?" "Because I wasn't there." — Monastique, Charleroi.

WORLD HAPPENINGS BRIEFLY TOLD

Dr. Charles Cansell, deputy minister at Ottawa, was chosen to head the Royal Society of Canada for the next year.

Since removing of embargo on export of precious metals in January, the amount of gold shipped from Japan totals about \$7,450,000.

Bert White, 77, leapt from an aeroplane 25,000 feet above Lancaster, California, and made a safe landing in an attempt to make a record parachute jump.

Construction of a 1,500 mile elevated electric railroad across the Sahara Desert is under discussion in Paris. The estimated cost is \$117,000,000.

William Chalmers, of Vancouver, "B.A." and "M.A." graduate of McGill University, has been awarded the Governor-General's silver medal for graduate research in chemistry.

Hon. Dr. J. H. King, Dominion Minister of Pensions and National Health, is the new president of the Canadian branch of the St. John Ambulance Association. He succeeds Senator Hewitt Bostock.

Miss Betty Carstairs has bought a whole boat building yard at Cowes, England, in order to keep secret the details of a speedboat she is building in the hope of capturing the world's speedboat title.

The Many-Purpose Oil.—Both in the house and stable there are scores of uses for Dr. Thomas' Electric Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and sciatica, sore throat and chest. Horses are liable very largely to similar ailments and mishaps as afflict mankind, and are equally amenable to the healing influence of this fine old remedy which has made thousands of firm friends during the past fifty years.

An Unusual Request

Dear Woman Will's Ears To Science For Research Purposes

In the hope that medical science can aid others by a study of her ears, deaf since childhood, Miss Abby Homer, 70, wealthy Chicago woman, has written them for research purposes after she dies.

The unusual will was announced by Dr. Austin A. Hayden, at a meeting of physicians and ear specialists.

"That medical science can have opportunity to make microscopic studies of the ears of those deafened during their lifetime, we will remain considerably in the dark as to why one out of ten persons suffers from some form of this malady," Dr. Hayden said.

At any rate the Toronto Telegram points out, there are eight young citizens of Canada who are not puzzled over what they will call the new lady senator.

W. N. U. 1540

Changing Styles in Fiction

Each Generation Has Different Idea Of What Is Interesting

There are faint, but unmistakable signs of a revolution against the new style of war books which have been all the rage for a year past. That is as it should be, for they were neither as colorful and dangerous as the old, nor true to life as the new. On the whole they were read less by grizzled veterans than by young ladies who liked being shocked by stories of strong drink and strong language at secondhand.

It was a change from what the trade called Shell-stuff which was itself a revolution from the Sentimental Tommy style, which was itself a novelty after strong silent men, gods in the car, and other utterly masculine types that delighted and thrilled the feminine readers of thirty years ago. So the clock of fashionable fiction goes round, and every generation worships the idols of its fathers under the delusion that they have discovered something new.

(By Annabelle Worthington.)

3278

A tiered model in printed silk crepe reflects a new note in modified Princess styling, which makes it so suitable for casual daytime wear.

The tiers show a downward curving tendency at back, a clever means of lengthening the silhouette. They are finished at top with novel false crepe silk applied hand that has in youthful bow at front.

The neckline in deep open V-shape employs the same trim for applied band. Long sleeves also gathered into cuffs of the crepe with tab ends. Design No. 3278 comes in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

The trimming bands work out nicely out from the dull surface in crepe satin, which is so important now in soft brown shade.

Black silk crepe, plum shade in wool crepe, tiny self-checked pattern in bottle green feather - weight woolen, tomato red crepe de chine, crepe marocain in dahlia purple and navy blue faille crepe appropriate and chic.

Pattern price 25 cents. Be sure to fill in size of pattern. Address: Pattern Department.

Minard's Drives Away the Headache.

DO YOU SUFFER FROM CONSTIPATION?

Countless remedies are advertised for constipation. Many relieve for the moment but they are habit-forming and must be continued. Others contain calomel and dangerous mineral drugs, which remain in the system, settle in the joints and cause aches and pains. Some are harsh purgatives which cramp and grip and leave a depressed after effect. Avoid lubricating oils which only grease the intestines and encourage nature's machinery to become lazy. A purely vegetable laxative such as Carter's Little Liver Pills, gently touches the liver, bile starts to flow, the bowels move gently, the intestines are thoroughly cleansed and constipation poisons pass away. The stomach, liver and bowels are now active and the system enjoys a real tonic effect. All druggists 25c and 75c red pigs.

A Peculiar Accident

When the parachute worn by a mechanic flying in an army plane was accidentally opened, the mechanic was pulled into the air, smashed against the tail of the plane, and pilot and mechanic were killed when the machine fell into the sea.

Smothering Spells

Couldn't Walk Far Gaped For Breath

Mrs. T. W. Roth, Kelowna, B.C., writes: "For over a year I was troubled with smothering spells, and it was impossible for me to walk, even a short distance, on account of having to gasp for breath. A friend told me to try

which I did, and in a short time I felt much better.

"I can now recommend them to everyone."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Pedestrians who cross the streets recklessly in Berlin are to be prosecuted. After they come out of the hospital, probably.

Use Minard's for Rheumatism.

One of life's little ironies is found in the fact that a fifty-dollar telephone pole can so completely demolish a \$3,000 motor-car.

SUNDAY SCHOOL LESSON

JUNE 8

JESUS IN THE SHADOW OF THE CROSS

Golden Text: "He went forward a little and fell on His face, and prayed, 'My Father, if it be possible, let this cup pass away from Me; nevertheless, not as I will, but as Thou wilt.'"—Matthew 26:39.

Devotional Reading: Psalm 42:1-5.

Explanations and Comments

Peter's Denial Foretold, verses 31-35.—On the way Jesus suddenly said, "All ye shall be offended in Me, (caused to stumble by what is to befall Me) this night; for it is written (Zech. 13:7). I will smite the Shepherd and the sheep of the flock shall be scattered abroad."

Then He added the encouraging words: "After I am raised up, I will go before you into Galilee." The Shepherd will yet again go before His flock, leading them.

If all shall be offended in Thee," vehemently Peter exclaimed, "I will never be offended." He is not sure of the other disciples, but he is certain in regard to himself. How little he knew his own weakness!

"Foraske the Christ thou sawest transfigured, Him Who trod the sea and brought the dead to life?"

"What shouldst thou think this?" ye laugh and ask. "What wrong? It's even a torchlight and a noise. The sudden Roman faces, violent hands, And fear of what the Jews might do! Just that. And it is written, 'I forsook and fled.' There was my trial, and it ended thus."—Browning.

"Never said Peter, but it will happen 'this night,'" said His Master. "I say unto thee, that this night before the cock crow—before the dawn—thou shalt deny me thrice." Again Peter protested his loyalty and fidelity: "Even if I must die with Thee, yet will I not deny Thee." Likewise also said all the disciples.

In Gethsemane, verses 36-46.—Jesus led His eleven disciples to the Garden of Gethsemane, retracing for the last time His oft-repeated journey for seasons of prayer and meditation. "Sit ye here," He said to the disciples, "while I go yonder and pray."

And He began to be sorrowful and sore troubled, and even said to His disciples, "My soul is exceeding sorrowful, even unto death." Before this He had talked calmly with His disciples of the cup He was about to drink, but now, in truth, He was "clean forespent, forespent."

"When the soul enters its Gethsemane, it withdraws a stone's cast from its most trusted friends." Jesus went forward a little, and falling on the ground prayed that if it were possible (it is in accord with His Father's will), "this cup" this suffering, might pass away from Him. "Nevertheless," He added, "not as I will, but as Thou wilt."

Service Becoming Popular

Passengers Are Using Telephone On

Since the installation of telephone service on the Canadian National trains, there has been an average of six calls a trip between Montreal and Toronto, and in the other direction, according to W. D. Robb, vice president, in whose department the service comes. Most of them have been from the train to Montreal, Toronto, Kingston, Oshawa, Hamilton, London, and other points, one being made to Ashville, New York. Several have been made to the moving train from outside points.

Persian Balm is alluringly fragrant. Adds a charming refinement to the most finished appearance. Creates and preserves complexions of surpassing loveliness and texture. Softens and whitens the hands. Cools and dispels all irritation caused by weather conditions. Swiftly absorbed by the tissues leaving never a vestige of stickiness. A peerless toilet requisite. Invaluable to all women who care for elegance and distinction.

Many Areas Tested

Since beginning the testing of cattle for tuberculosis in 1915, a total of 1,469,769 animals have been tested, in Canada and 14 areas declared free of the disease.

Minard's for Falling Hair.

Colonel Gustavo Leon, noted Mexican aviator, will attempt in May to follow the Lindbergh air trail across the Atlantic, if efforts to finance the venture are successful.

AMOUNTS PAID ON SUBSIDIES ARE ANNOUNCED

Ottawa, Ont.—Further information of the amount of money paid by the Dominion Government to the provinces was given to the House of Commons by Hon. C. A. Dunning, minister of finance, in reply to questions from F. G. Sanderson (Liberal, Perth Sound). It sets out the amounts which will be paid to the western provinces by way of subsidies after the agreements with the prairie provinces for the transfer of the natural resources and the agreement with British Columbia for the transfer of the railway belt and the Peace River block shall have come into effect. The payments will vary according as the population of the provinces increases.

The annual subsidy to Saskatchewan on the basis of the present population of 859,000 will be \$2,063,295. When the population reaches 1,000,000 the subsidy will have increased to \$2,710,375.

The subsidy to Alberta at present will be \$1,670,435. When the population reaches 800,000, it will be \$2,015,375, and when it reaches 1,200,000, it will be \$2,710,375. On the basis of its present population, Manitoba will receive \$1,662,084.18 annually. When the population reaches 800,000, this will have increased to \$1,991,641.18, when the population reaches 1,200,000 there will have been a further increase of \$2,686,584.18. In the intervening years the total payment will vary according to population.

British Columbia will receive its present population will receive an annual grant of \$738,816.66. This per capita grant will increase as the population increases. The grant for government and legislation will also increase from \$100,000 to \$250,000 when the population exceeds 800,000, and to \$400,000 when the population exceeds 1,200,000.

Will Continue Coal Rates

Extension Granted On Alberta Coal For Another Year

Drumheller, Alberta.—Eastern freight rate on Alberta coal, reduced a few years ago to aid the marketing of western coal in the east, will be continued for another year.

A wire to this effect has been received here from E. J. Garland, U.F.A., M.P. for Bow River, who stated that after making persistent demands for this extension the government agreed to have an order-in-council passed forthwith.

Mounties Leave For England

To Compete In International Horse Show At London

Ottawa.—A detachment of Royal Mounted Police to compete in the forthcoming International Horse Show at Olympia, London, sailed from Montreal on May 29. Major T. Dann, senior, ranking inspector of Canada's celebrated force, is in command. The riders and their mounts have been put through a strenuous period of training in Regina and Ottawa.

Waist Action On Survey

Ottawa, Ont.—It is highly advisable that both the Canadian National Railways and the Canadian Pacific Railway undertake a joint survey of an outlet to the Pacific coast. If that is not done within a year then the present administration, if returned to power, will take steps to have such work begun, declared the prime minister, Mackenzie King, in the House of Commons recently.

Administration Is Costly

Ottawa.—Expenditures for the administration of the opium and narcotic drug act have increased since 1926 from \$27,452.89 to \$62,110.83 in 1930, according to a return tabled in the House of Commons here.

To Make Tour Of Canada

Montreal.—Hon. R. B. Bennett, leader of the Conservative Party in Canada, will make a tour of Quebec and address political rallies at several points during the coming election campaign.

W. N. U. 1840

Senate Approves Grain Act

Given Three Readings and Passed Within Few Minutes

Ottawa, Ont.—Approval was given by the Senate to the consolidated draft of the Canada Grain Act which was prepared by a special committee of the House of Commons, during the present session. Within the space of a few minutes, the bill was introduced by Hon. Raoul Dandurand, government leader, given three readings and passed.

Senator A. B. Gillis protested against the bill being introduced so late in the session, making a careful study of it practically impossible. If this practice were followed all the time, the Senate would be "nothing but a rubber stamp" for the Commons, he said.

Fire In Alberta College

Main Building and Boys' Dormitory Were Destroyed

Lacombe, Alberta.—Fire, which broke out in the Canadian Junior College here, destroyed the main building and boys' dormitory. The loss is estimated at \$100,000.

Five boys, who with some 200 others escaped in their night clothes, received burns and were taken to the Lacombe hospital.

The college is the only Adventist institution of the kind in western Canada. There were three buildings on the site, the other being the girls' dormitory, which was saved. Erection of the structure was carried out some 20 years ago.

Canadian Nurse Killed In Italy

Car Left Road After Collision and Plunged Down Ravine

Florence, Italy.—Miss Helen Gee, 22, a United States girl, whose home is in Denver, Colo., and Miss Ruth Henderson, 32, a Canadian nurse, employed in John Hopkins Hospital, Baltimore, Md., were killed in an automobile accident near Rosta, 48 miles from here.

The automobile in which the two women were travelling collided with another automobile, left the road and plunged 250 feet down a ravine. The car was loaded with suit cases which showed that they were touring Italy.

Smelter For Far North

To Operate In Copper Mines On Great Slave Lake

Edmonton.—Within another 18 months a huge oil-burning smelter will be going full blast on the south-east corner of Great Slave Lake, turning the deposits of rich copper ore of this region into ingots to be transported to the markets of the world through Edmonton, according to plans of the Atlas Exploration Company, the Consolidated Smelters and Ventures, Limited, generally recognized as the three most powerful mineral development companies in Canada.

Gift Of Conservative Members

Huge Loving Cup Presented To Hon. R. B. Bennett

Ottawa.—With members and Senators thronged in the party caucus room of the House of Commons, Conservatives presented their leader—Hon. R. B. Bennett—with a huge loving cup. Taken entirely by surprise and visibly moved as the two oldest of his supporters in point of years, R. S. White and W. A. Black, made the presentation, the Opposition chieftain spoke feelingly in expressing his thanks.

Sound "Last Post" For Aviator

Ottawa.—"Last Post" was sounded and musketry rattled with the "present arms" of the firing party as a train pulled out of Union Station bearing the remains of Flight-Sergeant Robert W. Pike to Vancouver.

The body of the young flyer, killed in an aeroplane crash here, May 27, will find a last resting place in his native city in British Columbia.

Plans Westward Atlantic Flight

Dublin, Ireland.—The first attempted westward crossing of the Atlantic Ocean by plane this season will be made by Capt. Charles E. Kingsford-Smith, pilot of the Southern Cross on its California-to-Australia flight, near the end of June, he said here.

SPEAKER OF SENATE

Sensor A. C. Hardy, Brockville, Ont., who has been selected as Speaker of the Senate. The selection will be immediately confirmed by the government.

Veterans Can Renew Pensions

New Pension Act Contains Specific Provision For Commutations

Ottawa.—There is a specific provision in the new Pension Act in regard to veterans who were entitled to pensions but who commuted their rights for a cash sum of money.

The door to renewed pensions is now opened to these veterans. The act provides for them in this way. At the time of commutation they were conceded to be entitled to a certain monthly pension. If it will be presumed that instead of making a cash settlement, they had been drawing this pension continuously. If the passing years, calculated on a monthly basis, would have equalled the amount of cash they are once more eligible for pension provided they can prove that they are suffering from war disability. They will be entitled, once the full cash amount has been taken up by the passage of time, to a pension based upon their present disability.

Flight Again Postponed

R-100 Not Coming To Canada For Some Weeks Yet

London, England.—Projected flight of the British dirigible R-100 to Canada has been postponed until the end of June or the beginning of July.

Frederick Montague, under-secretary of state for air, informed the House of Commons of the postponement, stating that repairs were required by the huge ship. Repair material will have to be manufactured specially.

While on a recent 24-hour test flight over England, the R-100 had a section of covering torn from one of her fins and later it was found that she had suffered other minor damages.

It has been expected that the R-100 would make the flight to Canada about the beginning of June.

Saves Babies In China

Vancouver cows have become the foster mothers of children in China and Japan. Fresh certified milk is now being carried from Vancouver to the furthest ends of the earth, since New York, Montreal, Australia, South America and London, England, have already been supplied from the British Columbia port. Scientific refrigeration on the big white liners of the Canadian Pacific fleet lying between Vancouver and the Orient, is half the secret of the success of this long distance delivery of fresh milk; the other half is the quality of the product from the Brookbank Labora-

Over Seven Million Paid In Pensions

Dominion Government Contributed Nearly Four Million To Pensions

Ottawa, Ont.—The Dominion Government has contributed a total of \$3,771,549.68 to the province in aid of old age pensions, up to the end of the last fiscal year, according to a return tabled in the House of Commons. The disbursements to the 42,553 pensioners throughout Canada amounted to \$7,542,579.12.

Following is the distribution by provinces: Alberta, 2,017 pensioners, \$267,420.04 total paid; British Columbia, 4,576 pensioners, \$2,049,674.52 total paid; Manitoba, 5,104 pensioners, \$1,649,266.67 total paid; Ontario, 26,370 pensioners, \$2,225,688.32 total paid; Saskatchewan, 4,482 pensioners, \$1,139,942.32 total paid; North-West Territories, 4 pensioners, \$557 total paid.

The apparent disproportion as between pensioners and total payments is due to the shorter period in which the act has been operating in the various provinces. British Columbia was the first to adopt the act, Ontario the last. Consequently the disbursements to British Columbia have been in progress for a much longer time than to Ontario.

Passes House Of Commons

Contributions From Companies For Campaign Purposes Allowed

By Election Act

Ottawa.—The new Dominion Election Act was finally passed by the House of Commons after an amendment by J. S. Woodsworth (Labor, Winnipeg North Centre), had been accepted.

The amendment repeals a section prohibiting contributions from companies for campaign purposes. Mr. Woodsworth claimed that this provision worked a hardship on labor unions desiring to make contributions while large corporations had been able to contribute despite the section. The effect of the amendment is interpreted to mean that contributions to campaign funds from unincorporated companies and organizations will be subject to no restriction.

Wilkins May Accompany Dominion Expedition

Famous Explorer Has Permission To Go To Arctic

Ottawa.—Sir Hubert Wilkins may accompany the 1930 Arctic expedition, sent out annually by the Dominion Department of Interior, through its northwest territories and Yukon branch. It was reported that the famed Australian explorer and scientist had the permission of the department to join the expedition, which will travel north on the S.S. Boethic, which leaves North Sydney, Nova Scotia, towards the end of July.

GRAIN MOVING STEADILY FROM HEAD OF LAKES

Montreal, Que.—The Montreal Star publishes the following despatch from Fort William, Ont.

"Commenting on advices from Montreal that a big movement of export grain is an immediate prospect, E. A. Ursell, chief statistician of the Board of Grain Commissioners, said the announcement was not unexpected.

"He said European buyers were commencing to take Canadian grain, and he looked for a brisk movement in June and July.

"The situation has greatly improved during the last two weeks, he said. He expected shipments from Fort Arthur and Fort William to run from 15,000,000 to 20,000,000 a month, which would mean a carry-over considerably less than last year.

Fort William, Ont.—Increased shipments from the Head of the Lakes during the past few days and a great improvement in export conditions on the Atlantic seaboard are noted by E. A. Ursell, statistician to the Board of Grain Commissioners, commenting on reports from Montreal that a big movement of export grain is an immediate prospect.

Mr. Ursell points out that liner tonnage has been taken up with wheat, and five tramp vessels are now at Montreal to take on wheat for Mediterranean ports, which of itself, he says, is a very satisfactory condition, showing that there is a demand for wheat in large quantities among the continental European buyers.

"It is reported that 5,000,000 bushels of wheat were exported during week of May 19 to 24, and 4,000,000 the week before.

"Should the export movement continue at the past few days and at the same rate," the statistician adds, "the carry-over of wheat in Canadian channels is not likely to be more than 80,000,000 bushels, as was indicated in a report issued four months ago by the statistician's office of the Board of Grain Commissioners.

Operating On New Time

Prairie Air Mail Making Use Of Additional Daylight

Winnipeg.—The new schedule for the Western Canada Prairie Airmail service went into effect May 27, when the plane carrying the mail for western points left Stevenson airport at 7:30.

A careful survey had shown the greatest difficulty in operating the service, due to meteorological conditions, was on the leg from the route between Winnipeg and Regina, and particularly at the Winnipeg end, Mr. Coolican said.

Making use of the additional hour and a half of daylight is expected to better the percentage of effective performance.

Young Aviatix Killed

Motor Stalls and Girl Fell Two Thousand Feet

Colorado Springs, Colo.—One of America's youngest aviatrices, 17-year-old Margaret Ferguson, fell 2,000 feet and was killed, while attempting desperately to start her stalled motor.

Miss Ferguson obtained her government pilot license only a few days ago. She was making a solo flight before attending her high school class when apparently motor trouble occurred. The motor was heard to restart once during the 2,000 foot plunge, but sputtered and died again.

Some War Books Criticized

Edinburgh, Scotland.—Some modern war books were described as "filthy" and "inexhaustible exploitation of those who lost kin in the war," by the Rev. John Calder, Campbelltown, at the Assembly of the Free Church of Scotland. "These books," said Dr. Calder, "constitute a libel on the army and a calumny on the heroic dead."

Chief Scout Re-Elected

Ottawa.—His Excellency the Governor-General was re-elected as chief scout for Canada at the annual meeting of the Canadian General Council of the Boy Scouts Association.

Stony Plain and District.

Yesterday seen the commencement of Wed. half-holiday in Stony. The holiday continues thru June, July and August.

Mr Donald Macleod was in attendance in Edmonton on Monday at a meeting of the Livestock Pool, of which he is a director.

Young Henry Washburn was taken to an Edmonton hospital last Thursday and operated on the same evening for appendicitis.

Herb Wolfe is up from Turner Valley, spending a vacation with his parents.

Mr Henry Enders headed a party which left Saturday for Wembley. The party is proceeding by rail, taking up a new Ford truck for Jac Miller and a Ford car for Carl Enders.

Mrs Comisarow has made good progress toward recovery from an operation, and is staying with friends in the City at present, and is expected to return home next week.

Michael Kruger, a former resident of Rosenthal district, is suing George Goldberg for \$5000 in the Supreme Court for injuries he claims he received by being knocked over in Edmonton by defendant's auto.

On Monday, June 2, in Edmonton, Miss Beulah Carr (daughter of Mrs E Carr, of Stony Plain) was united in marriage to Mr Chester Burger of Holborn district (son of Mr and Mrs August Burger).

Calendar.

- JUNE—
- 5—Town Council meets
- 5—Stony Plain U.F. Local meets.
- 7—Dance at Moose Hall.
- 9—Nomination Day, for Provincial legislators.
- 11—Meeting of teachers at Edmonton Beach.
- 19—Election Day.

Basketball Schedule.

- June 5—G Valley at W League
 - Stony v. Comet
 - June 8—Stony v. G Valley
 - Comet v. W. League
- These are the last games in the present schedule.

Holborn Happenings.

A Wheat Pool meeting will be held tonight the 6th.

The benefit dance Tuesday evening was a success, there being a good attendance.

Noticeable among the dancers on Tuesday night were the two candidates—Bryan and Macleod.

A big U.F. meeting will take place at Holborn next Monday evening, 9th June, when V-Pres. Schofield and Donald Macleod will give addresses.

Railway Time Table

Going East—Every day except Tuesday at 7:01; every morning at 6:23.

Going West—Every day except Sun. at 22:28; every midnight at 24:04.

The Confederation leaves Edmonton, Westbound 8:30; East-bound 17:05.

For Sale, 3 flat bottom rowboats with oars and oarlocks, \$8 each. J. A. Barrie. 13mp

Lost, on Meridian Road, between Stony and Repertoire corner, on Thurs May 29, 1 rubber chain oil Star car. Reward at Sun Office.

Lost, Roan Mare, 10 years old, 1150 lbs.; split hoof on right hind leg. Henry Baran, Blueberry.

House to Rent, \$15 a month, on 1st St. east; or will sell cheap \$1600; 3 rooms, full basement, hot air furnace. John Armbruster.

Spruce Grove News

Mr T Graden, Edmonton, was a Sunday visitor at the Graden home, here.

Rev C Keenan returned on Saturday from his Ontario trip, and held services in St Joseph's church on Sunday. Rev M Leamy, who had been suffering from a slight indisposition, has resumed his duties. Rev Campbell, who had shared the parish duties in the absence of Father Keenan, has gone to Regina as secretary to Archbishop McGuigan.

Mr Albert Fischer is painting the interior of the Grove Hotel.

Mr Barnhardt motored a party of young sports out to the Beach Sunday afternoon.

Miss Elsie Goebel was taken in to an Edmonton hospital last week, suffering from an attack of fever. Her brother Leonard had arrived home just two days before from the same institution, where he had undergone a major operation.

Residents of this district attended in goodly numbers the meeting Monday night at Winterburn, when Mr Donald Macleod, the U. F. candidate, gave an address.

Mr Jac Brox had as a visitor on Friday Col. Jamieson, who contested West Edmonton in 1926. He is to be a candidate at the election in July. The Colonel was accompanied by Mr Milner, K.C., president of West Edmonton Conservative association.

The Grove's leading politician is now in semi-retirement—cogitating the problem the present political situation presents.

Stony's Girl basketball team played the Grove's team on the school grounds Friday evening, and won handily, with a wide margin. Mr E Dannhauser refereed. A good-sized crowd of fans was present.

The Grove's junior ball team didn't lose last Sunday's game at the Beach—the other team didn't show up.

A large delegation from this district attended the dance on Tuesday (King George's birthday) given in Edmonton by the Alberta Old Timers' association.

LUMBAGO?

A pain in the lower part of your back can torture you. But not for long, if you know about Aspirin! These harmless, pleasant tablets take away the misery of lumbago, rheumatism, neuralgia, headaches, toothaches, and systemic pains of women. Relief comes promptly, is complete. Genuine Aspirin cannot depress the heart. Look for the Bayer cross, thus:

CHAPTER XV.

"Dinner is served, ladies and gents," responded Charmian; while the doctor, throwing her an appreciative smile, arose, and with the good manners Grandma had noticed on his arrival, offered his arm to the old lady.

School opened on the fifth of September. Charmian was up early that morning, but when she came downstairs she found that her boarder had been earlier still. The fire was burning brightly and the table was set.

"Hello, Miss Scholemann," he greeted her. "Thought you might be in a fluster this morning, and like an early start. But you needn't feel too rushed because I'm going your way right after breakfast and can give you a lift."

"I don't believe you," said Charmian severely. "I think you're just saying so to save me the walk."

"Didn't you hear the telephone ring at six o'clock?" he demanded in an injured tone. "Believe it or not, it was a bona fide call in your direction. Say! what can I do next? I'd have started the coffee, but I knew you'd suspect it wasn't right."

Charmian laughed.

"You've found me out. No one's ever allowed to make my coffee. You may get the butter and cream out of the ice box, and then I'd appreciate your room more than your company. I'm excited, and likely to do some crazy thing if you divert me."

"Shall you be home at noon to see to Grandma?"

John Carter had begun taking his dinners at the hotel, and disliked them even more than Charmian suspected. Her face sobered at his question.

"That's the one cloud in my sky," she admitted. "I really can't get back; and though I leave everything ready in the kitchen, I hate to have her fussing around alone."

The doctor looked thoughtfully out of the window. He was to all appearances watching the Merry's Gypsy investigate an invisible mouse in the wood pile, but when he turned he said:

"Look here, Charmian, why not let me come in at noon and help? We can eat here in the kitchen, and it would be less lonely for Grandma."

wouldn't it? You can leave things half ready, and I'll do the rest. Of course there'll be days when I can't get here; but it would be better than having her eat every noon meal alone. On Saturdays and Sundays I'll go to the hotel, of course," he added. "I'm trying to lighten your work, you know, not make it harder."

The girl looked up, a grateful smile lighting her eyes, widening the pretty curve of her lips.

"What a trump you are!" He laughed.

"Does that mean that you approve of my suggestion?"

"It does if—Would it be fair to you?" she broke off suddenly.

"Fair! You'd think it fair if you knew how I detest that hotel table! You've spoiled me completely, serving my meals as daintily as if I were an invalid. Anyhow, I like fussing round a kitchen. Sometimes I think I'd have been more of a success as a chef than as a doctor."

"Well," said the girl, "if you'll accept your lunch in payment for your services—"

"Charmian Davis, are you a moron?" He faced her, looking so belligerent that she had to smile. "I pay a dollar every day at that miserable joint of a hotel, and you're suggesting—"

"But you don't cook your own lunch there," she broke in seriously.

"And I shan't here. I'll merely warm up the stuff you leave, and keep that precious little old lady from being lonely. And you ask me to accept food in payment. I'm surprised!"

"But—"

"There's no 'but' about it. Look here! The doctor indulged in a bit of lightning calculation, and when I used: 'We'll split the difference if it makes you happier. I'm not likely to devour more than fifty cents' worth of provisions. I'll pay you that, do any necessary cooking, and when I don't have to hurry off (and unless my practice increases surprisingly there's no danger!), I'll wash the dishes. Thus I'll be saving fifty cents a day, which means a lot to me, and you—"

"And I shall feel like a different girl!" ended Charmian as he hesitated.

"Really, I've dreaded leaving Grandma alone so much. I don't know how to thank you, Doctor."

"You can do so by dropping that ridiculous habit of addressing me as Doctor. I'm forgetting that I possess a Christian name. And I've had the cheek to call you Charmian for weeks."

"Every one in Wickfield calls me Charmian," she responded. "I rather expect to be addressed that way by some of my pupils! If I had been an ordinary Mister—well, I shouldn't have kept that up, of course; but Doctor, minus the Carter, has an informal sound, you know. However, I'll reform at once, though I've no doubt Grandma will consider me unmanly."

She laughed—broke an egg into a blue bowl, and added: "Clear out, John. It's beyond my powers to converse intelligently with a man while I get his breakfast."

Grandma, when told of the new plan, brightened visibly.

"I don't mind owning now that I've sort of dreaded my dinners," she admitted. "Somehow the days seem long with no one to speak to, though I've no doubt the neighbors will drop in more often knowing that you're not here, dearie. Some days, when there's a lot of excitement in the street, the time goes quick enough; but it'll be something to look forward to having the doctor come home at noon."

ZAM-BUK

CHAMBERLAIN'S MEDICINE CO.

"Thanks," he said, smiling at her across the table. "I expect we'll be a regular party and Joan before the winter's over!"

"No reason why we shouldn't," replied Grandma, as she dipped a toast crust in her coffee. "I don't know any young man I'd rather have around, even Jimmy Bennett, and I'm as fond of Jim as if he was my own grandson. There are even times when I hope he will be; but there's no telling."

"Why, Grandma Davis!" cried Charmian. "Whoever heard such talk—and before a stranger!"

"The doctor isn't a stranger," corrected Grandma, "and even a stranger would see that Jimmy Bennett thinks the world of you, wouldn't they, Doctor?"

John Carter, who was enjoying Charmian's confusion, replied in the affirmative, and Grandma said: "The only drawback to Jimmy is his mother. She's a good woman, but terribly exacting, and she expects her boy to do just what she says. There are times when I wonder why he doesn't kick over the traces and rebel; but he's a good son, and he sees the funny side of things, too, and that makes him interesting. Mayn't the time he's run in to tell me a funny story—times when he knew Charmian wasn't home, and that proves that he's got a kind heart. But he's not poetic, like Charmian, and I've sometimes wondered—"

"Really," broke in Charmian, arising, "I must know it's not polite to interrupt. I must start fixing your lunch, Grandma, or he'll be late to school on my first morning. You and the doctor can take your time, but—"

She left the room, her sentence unfinished, and Grandma said: "I guess maybe she didn't want me to talk about her and Jimmy; and she's excited, too, beginning school, and all. You go out, sonny and tell her not to bother with much of a meal for us today. We'll eat the left-overs."

Charmian returned that afternoon, tired but happy. Things had gone well, and she had met Doctor Howe on the way back, and ridden in with him.

"Between the two doctors I shan't get the exercise I need," she said to Grandma. "I mustn't let myself get fat as I get old!"

"Fat!" snorted the old lady. "The Davises don't put on flesh, child. They're apt to be lean and spare in their old age; and your mother's people were the same. You needn't worry about getting fleshy like Lizzie Baker. She eats too much, and she never walks if she can sit."

"Well, dearie, I'm glad things went all right on your first day. And I got along real well myself. Lizzie Baker ran over to borrow some vinegar (she was making salad dressing); and Mrs. Merry stopped in for a spoon of cotton and stayed an hour. The doctor warmed up things real tasty, and we had as nice a dinner as I ever ate. He had another call just as he finished doing up the dishes; and there's been a patient at the office, too. He's feeling real encouraged. He says if things continue to go on this way he'll be getting him a wife. I dunno who he'll find 'round Wickfield unless it's you, dearie, and I wouldn't mind if it was. He's got the makings of a good husband."

Charmian sat down and laughed. "You seem bound to marry me to some one, Grandma. Are you ashamed of an old maid granddaughter? In these days a girl thinks twice before she takes on the cares of matrimony."

Cleaning British Library
Another reasonable observance is the beginning of the great spring-clean at the British Museum Library. The regular dusting brigade on the library staff is reinforced for the occasion by a band of outside specialists, so that in all about eighty men are kept busy. The dusting of books goes on systematically, of course, from January 1 to December 31.

The Berlin, Germany, police department has been given an outdoor gymnasium which 100 men can use at a time.

W. N. U. 1840

Relic Of Colonial Days

Victoria Will Preserve Iron House Erected Seventy Years Ago

When sappers of the Royal Engineers came to British Columbia in 1858, to build roads in the new British colony, they built their houses of iron. The engineers either were not conversant with the durability of the country's lumber or else they desired additional protection from Indian raids.

The old iron houses were forgotten years ago, and it was thought that the last of them had been removed until workmen engaged in clearing away old buildings to make room for additions to the government buildings at Victoria, discovered the iron structure which had served as a dwelling 70 years ago. Sills under the building were found to be in good condition. They were of timber brought out from England.

Provincial government authorities upon learning the history of the iron house, ordered it placed upon a new foundation and to be preserved as a relic of old colonial days.

STURDY CHILDHOOD

The sturdy child—the bright, active little chap—is the one everybody loves. It is only the sickly, fretful child who is not attractive. It is the birthright of every child to be sturdy and well—to be able to make every one admire him. Therefore, mothers, if yours is not attractive it's your fault, not his. He must be ailing and it is up to you to see that he gets relief—that he is given a medicine that will quickly make him well and keep him well.

Baby's Own Tablets are especially designed for infants and young children. There is nothing to equal them for correcting the irregularities of the stomach and bowels—the cause of most of the ills from which little ones suffer. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Teacher: "What is an island?"
Bright Boy: "A place where the bottom of the sea sticks up through the water."

Douglas' Egyptian Liniment relieves toothache and neuralgia. It is valuable in cases of cramp, sore throat and ginseng. Keep a bottle handy.

Imports of motor vehicles into China last year were more than 50 per cent. greater than in the previous 12 months.

"Skinny! Gained 11 Lbs. in 8 Weeks and Boy Friend"

"After trying several tonics tried Ironized Yeast. In 8 weeks gained 11 lbs., new complexion, round limbs; best of all a boy friend."—M. M. Salton.

Men and women are amazed at gain of 5 to 15 lbs. in 3 weeks. Ugly hollows vanish. Bony limbs round out. Sallow, bleached skin gets clear and rosy like magic. Nervousness, indigestion, constipation disappear overnight. Sound sleep. New pep from very first day.

Two great tonics in one—special weight-building Mail Yeast and strengthening Iron. Pleasant little tablets. Far stronger than unmedicated yeast. Results in 1/2 time. No yeast taste or gas.

Don't go round "skinny," ugly, unattractive. Get Ironized Yeast from druggist today. Feel great tomorrow. Money back from manufacturer if not delighted with results.

Little Helps For This Week

"Though He slay me, yet will I trust in Him."—Job 13, 16.

Within the slender chalice of the hand

Hold fast what I give thee, and drop down

The fringes of those tender flowers

Thy wondering eyes; nor question, nor withstand

What I may give. Perchance my love hath planned

Some sweet surprise or test if thou be true

What if it be a sprig of bitter rue, A strange sweet summons to an unlovely land,

A hurting thorn, a cross? rare gifts I know

Quick, dear, think answer! 'I should trust until

The hidden meaning in thy gift should show."

Alas, sweetest, God sends just such gifts to thee

Canst thou not answer Him as thou dost love?

We should see not only the hand of God, but the hand of our Heavenly Father, full of mercy and loving-kindness in all that befalls us. We should believe it to be best for us, because it is His will.

—George W. Bethune.

Baby bears are almost invariably born in the winter.

Be Certain of SAFETY Build with Gyproc

Fire can hurt you
Home to destruction unless a fire-resistant material such as the new Ivory coloured Gyproc Wallboard is used in its construction.

Inexpensive, permanent, easy to apply, Gyproc Wallboard does not burn. It is exactly what you want for fire-safe walls, ceilings and partitions when you build, remodel or repair.

Ask your dealer today for full information on Gyproc Wallboard or send for interesting free book, "Building and Remodelling with Gyproc."

The NEW IVORY

When Pain Comes

What many people call indigestion is very often merely excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude materials when once you learn the efficiency of this. Get a small bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting acid excess. Each bottle contains full directions—any druggist.

Notes of the Elections

Monday next, June 9th, is the Nomination Day for candidates for election to the Legislative Assembly. Nominations for Stony Plain Constituency are received in Stony Plain Town, by Mr. Reuben Larson, Returning Officer.

U. F. Candidate Donald Macleod is meeting with great success in the series of meetings he has inaugurated. He speaks at Woodbend tonight, and at Entwistle and Wabamun on Saturday. Mr. Roper, Edmonton, was one of the speakers at the Winterburn meeting.

A writer complains that nowadays politicians get on the front page and get on the platform. And, he adds, some get on the nerve.

Stony Plain constituents have been in the habit of seeing a quarter-dozen or four candidates entered in the Provincial contests. It looks as if we are in for a disappointment this election; but what the candidates lack in quantity they make up in quality—for voters in no constituency will have a better pair to choose from than we.

Mr. W. M. Washburn is taking an active part in the campaign for the election of Donald Macleod. Mr. Washburn addressed a meeting at Hansen's Corners on Friday night, which was well attended. It was at this place a U. F. Local was recently formed.

The Enumerators have finished their labors, and their lists have been posted up in the conspicuous places. On Tuesday June 17, between 10 a. and 4 p. m. appeals to add or strike off names on the list may be made to the Revising officers.

That they are fair minded, the past record of the voters in this Constituency shows, as, since 1905, they have had a Liberal (MacPherson) for two terms; two Conservatives (Widenheimer & Lundy) for a term apiece; and a U. F. A. (Washburn) for two terms. This evens things up between the three parties; and speculation is now rife as to which way the voters will jump next!

Free, Poplar Poles, for hauling them away or piling them on the breaking. E. C. McLaughlin, phone 972-5123.

Hansen's Corners.

There was a big U. F. meeting here on Saturday night. The United Farmers' candidate Mr. Donald Macleod, it is expected, will make his appearance here this week.

Mr. E. McLehman was a week-end visitor with Mr. Young.

Now that all the farmers around here are quite satisfied they ain't going to be dried out, the sole topic of conversation is Politics—and then some.

One of our local farmers says he has increased his egg supply by posting in his hen-coop the sign "An egg a day keeps the hatchet away."

Edmonton Beach.

This popular Beach had quite a number of visitors and cottagers over the week-end. The basketball teams fought it out in evening; on account of darkness some games were postponed to June 8, when the games will be played on the Beach in the afternoon.

Brightbank baseball team did not put in an appearance—why nobody knows. Spruce Grove team waited all afternoon, and they are a promising lot of boys; but, Come on, Brightbank!

A mishap in the lighting put the Beach and dance hall into darkness Saturday. However Mr. Gillis of Edmonton was out and repaired it over the week-end.

The Teachers' dance billed for June 4th was called by Mr. Barrie on account of it conflicting with a nearby benefit dance. All teachers, far and near, are invited to a meeting Wed. June 11, 7.30 p. m., to appoint supervisors, committees etc. for holding school contests, when the Barrie Shield, along with cash prizes. At the close of the meeting complimentary tickets will be given to all teachers present to the public dance commencing at 9 p. m.

At the regular dance this Saturday night some more beautiful prizes will be given. The lucky ticket, Miss Minnie Altheim and Mr. J. A. Werner were the winners last dance.

Mr. A. M. Allen, late of Calgary, now of Edmonton with the Government, has purchased a lot and commences building this week.

Here and There

(181)

Arrangements have been completed whereby the arrival in Canada of the R-100, Britain's huge airliner, will be broadcast throughout Canada and the United States by the Trans-Canada Broadcasting Company and the National Broadcasting Company, according to announcement recently made by R. W. Ashcroft, manager of the former company. The official broadcast, which includes the arrival of the ship and attendant ceremonies, will be carried from coast to coast of the Dominion over the new radio programme broadcasting transmission system of the Canadian Pacific Railway Company's telegraphs.

Welcoming the latest addition to the Canadian Pacific Railway's fleet of 19 passenger vessels on ocean and coastal service in British Columbia, Vancouver recently congratulated the railway on its initiative and foresight in building, upon the west coast of Canada a service second to none, on the occasion of the arrival of the "Princess Elizabeth" at the Pacific port. The sister ship, "Princess Joan" arrived at Victoria the following day. The "Elizabeth" was welcomed by the Mayor of Vancouver.

Marking the passing of another milestone in the history of the company, the recently constructed Canadian Pacific branch line from Willingdon to Vegreville, a distance of about 20 miles, was declared open for traffic recently with the arrival of the first passenger train at the Vegreville station.

With a record reservation list indicating a very busy season ahead, the Banff Springs Hotel welcomed its first guests of the year May 15. Considerable improvement work has been done on the 15 hole golf course which was virtually ready for play on opening day.

Development of fruit growing on the prairies has been one of the features of agricultural progress in recent years in western Canada. Patches of native gooseberries, currants and raspberries have evolved into orchards containing many varieties of plums, cherries, apples and small fruits. The largest acreages are devoted to strawberries and raspberries.

A recent official compilation shows that farm live stock in Canada in 1929 was valued at \$864,167,900 as compared with \$364,472,000 in 1928. Canada's poultry population in 1929 numbered 60,899,782, valued at \$65,854,000.

A forest in embryo—250 acres of jack and white pine—has been planted by the Saskatchewan forestry service in the Prince Albert region. H. P. Esler, forestry engineer, states that the transplanting of 2,000,000 nursery seedlings and stock is the largest of such programmes in the history of the province.

While the official opening of the Welland Ship Canal, constructed at a cost of \$120,000,000, will not take place until next July, the northern section was unofficially opened to traffic recently when the steamer Georgian entered Lock No. 1 from Port Weller, the Lake Ontario end of the canal, and passed through to Lake Erie.
